harmony with nature

for  
paw individual

**Pitho** is a registered trademark of Pitho Food Industry and Trade Limited Company.

Pitho provides healthy foods and supplements for both humans and paw individuals, using ingredients that are suitable for human consumption.

Our company is inspired by the compassion of individuals who share their lives with paw individuals and the challenges they face in accessing accurate information. Therefore, we provide reliable and need-oriented products in the light of accurate information based on sources.

We collaborate with scientists and manufacturers who are experts in their respective fields. Our motivation is our customers's positive feedback and their trust on us. Therefore, we provide reliable and needs-based products based on information from trustworthy scientific sources, collaborating with experts in the field and manufacturers.

We believe in the **responsibility** of those who eat healthy not only for themselves but also for their loved ones, the **unity** that comes from sharing not only themselves but also their loved ones, and the **wisdom** of sensitivity shown not only to their own species but to the whole.

With health, peace and confidence that comes in **harmony with nature...**

# GENTLE CARE

**Pitho Spirulina C** is obtained from superior harvested Pitho Spirulina, which is of human use quality and contains 70% protein and 14% c-phycoocyanin. In powder form, it is a natural supplement and offers proven benefits.

Spirulina C;

- It **strengthens the immune response** with the powerful antioxidants and nutrients it contains.
- It **supports fur and skin health** with the healthy fatty acids and vitamins it contains.
- Thanks to its L-tryptophan content, it helps **cope with stress** by facilitating the secretion of serotonin and melatonin.
- Thanks to the folic acid it contains, it **supports cognitive health**.
- It has been proven that, thanks to the C-phycoocyanin it contains, it increases the effectiveness of vaccines by accelerating the antibody response and also has a strong **anti-allergenic effect**.
- It **protects intestinal health** with its prebiotic, antioxidant and **anti-inflammatory properties**.

Thanks to its digestible natural nutrients, it ensures that vitamins and minerals are obtained from a **natural source**.

Thanks to its positive effects on **liver and kidney health**, it is an important support for individuals with paws who are being treated.

Each of its benefits has been proven by detailed studies conducted by international universities, and the original articles of these studies can always be accessed.

**It does not contain preservatives, colorants, sweeteners, flavors or any additives.**

For all these benefits and more, it is sufficient to consume only **1-4 grams of Spirulina C per day** with food or alternative methods.

The daily amount can be increased up to 3 times depending on the severity of the disease and the need. This amount, with the added support of being in powder form, makes it easier to mix it with water and give it orally with a feeding bottle or a needleless syringe to individuals with loss of appetite.

**Immune Booster** is a malt suitable for cats' tastes, containing 9 Vitamins, Methionine and human-quality Pitho Spirulina to support the healthy development of cats and strengthen their immune responses.

Ingredients: DL-Methionine, Taurine, Niacin, Ca-D-Pantothenate, Vitamin B1, B2, B6, B12, Vitamin K3, Biotin, Mannan-Oligosaccharide (MOS), Pitho Spirulina.

- Methionine helps protect the **kidneys, fur and skin**.
- Niacin helps cells release **energy and lowers LDL levels**.
- Ca-D-Pantothenate is an **anti-stress** vitamin.
- Vitamin B2 helps produce energy from fats and also supports **skin and fur health**.
- Taurine supports eye and **heart functions**.
- Biotin helps fight against **excess fur loss**.
- Pitho Spirulina, which is of human use quality and contains 70% protein, provides a physical and cognitive detox effect with its 9 essential amino acids, powerful c-phycoyanin and nutrients, and plays an important role in strengthening the **immune response**.

**Usage Recommendation:** Add 2.5 grams per day to the food of cats over 3 months old.

It can be given with food or directly (0.5 g is approximately 1 cm).

# SENSITIVE IMMUNE SUPPORT

The powerful and gentle formula of **Immune B-Plus** contains nature's best ingredients and essential nutrients in ideal proportions to strengthen the cat's immune system and support optimal development.

Ingredients: Echinacea Extract, Black Elderberry Extract, Propolis Extract, Vitamin C, Vitamin E, Zinc, Mannan-Oligosaccharide (MOS) & 1, 3-1, 6 Beta Glucan, Pitho Spirulina.

- **Echinacea Extract:** Strengthens immune function and reduces inflammation, if any. It has hormonal balance, antiviral and antioxidant effects.
- **Black Elderberry Extract:** Helps neutralize free radicals and is effective against viral infections. Black elderberry extract is a powerful antioxidant and anti-inflammatory, thus improving overall well-being and supporting the immune system.
- **Propolis Extract:** With its antibacterial, antiviral and anti-inflammatory properties, Propolis Extract acts as a natural shield for your cat's immune system. It helps protect paw-bearing individuals from a variety of health threats by fighting potential pathogens and reducing inflammation.
- **Vitamin C:** Has an important physiological role in numerous metabolic functions, including tissue growth and maintenance, amelioration of oxidative stress, and immune response regulation.
- **Vitamin E:** Supports the immune system and the body's ability to form red blood cells while protecting against oxidative stress, which can negatively affect cell membranes, neurological function, vision and cardiovascular health. Thanks to its antioxidant and anti-inflammatory properties, vitamin E for cats is also recommended in the treatment of different chronic inflammatory or immune-mediated disorders, especially of the skin and gastrointestinal tract.
- **Zinc:** Zinc is an important mineral required for DNA production, growth, wound healing and immune function. Since zinc is not produced by the body, it must be taken from outside. The presence of the ideal ratio of zinc, which is risky in both deficiency and excess, is very important.
- **Mannan Oligosaccharide & 1,3-1,6 Beta Glucan:** It is a prebiotic compound that supports the growth of beneficial intestinal bacteria. By increasing the immune response of the intestine, it allows improvement of general immune function and a better defense mechanism against infections.
- **Pitho Spirulina,** which is of quality for human use and contains 70% protein, plays an important role in strengthening the immune response while providing a physical and cognitive detox effect with its 9 essential amino acids, powerful c-phycocyanin and nutrients.

# DAILY SUPPORT

Cats, by nature, take care of their personal care and clean themselves frequently with the help of their tongues.

They may swallow their fur while cleaning themselves. This condition, which causes furballs to form and blockages, can also cause discomfort and problems in the digestive systems.

**Anti-furball Premium Support** has a formula made using herbal ingredients of human use quality, which is also suitable for sensitive cats.

It helps maintain a healthy digestive system, eliminates existing furballs and prevents furball formation with regular use.

Anti-furball Premium Support is easy to apply because cats love its taste like a treat.

- **The pumpkin** it contains helps prevent painful anal sac problems and reduces furballs.
- **Slippery Elm Bark** helps maintain a healthy digestive system and proper bowel function.
- **Psyllium Husk** supports normal colon function and helps maintain healthy digestion.
- **Pitho Spirulina**, which is of quality for human use and contains 70% protein, antioxidants that support circulatory function and vascular health and protect against the damage of free radicals; in addition to its essential amino acid and high protein content, it supports coat and skin health with naturally healthy fatty acids, B complex vitamins, vitamin C, vitamin E, iron, zinc and copper.
- **Marshmallow Root** supports both a healthy digestive system and a healthy urinary tract.

**Usage Recommendation:** It is given by adding it to their food or directly from the tube, about 2 cm.

# HEALTHY GROWTH

**Pitho Multi-Junior** provides a balanced combination of vitamins, minerals and essential amino acids, supporting kittens who are always ready to play while rapidly laying the foundations of both their physical and cognitive development.

**Ingredients:** Vitamin D3, Taurine, Vitamin B1, B2, B6, B12, Niacin, Ca-D-Pantothenate, Folic Acid, Biotin, Dicalcium Phosphate, Mannan-Oligosaccharide (MOS), Pitho Spirulina.

- **Taurine:** It cannot be synthesized by the body and must be taken externally. While taurine deficiency can cause eye and heart problems, it is also required for healthy bone development.
- **Folic Acid:** While it plays an active role in cell division, new cell formation and cell renewal, it also plays very important roles in DNA formation and the conversion of carbohydrates into energy.
- **Dicalcium Phosphate:** Necessary for bone and dental health. Not providing enough calcium and phosphate and disrupting this balance can lead to skeletal problems and deterioration in dental health in later periods.
- **MOS:** Supports the digestive system and provides a balancing effect against intestinal bacteria.
- **Biotin:** Supports skin and coat health.
- **Ca-D-Pantothenate:** It is effective against stress.
- **Vitamin D3:** While it is important for the health of the organs in the circulatory system, it also strengthens the immune response.
- **Vitamin B2:** While it helps produce energy from fats, it also supports skin and fur health.
- **Vitamin B6:** Contributes to healthy brain function.
- **Vitamin B12:** Strengthens the immune response while supporting blood and nerve cells.
- **Pitho Spirulina,** which is of human use quality and contains 70% protein: While it contains high amounts of iron, one of the most important minerals for growth and development. It is also rich in zinc, L-tryptophan and essential amino acids.

**Usage Suggestion:** Add it to their food or give 1-2 cm directly from the tube. (1 cm is 0.5 grams)

COLLAGEN

MANNAN  
OLIGOSACCHARIDES

**Pitho Derma Cure** is formulated to restore the fur and skin structure of cats to its best version.

**Ingredients:** Biotin, Zinc, Collagen TIP1-TIP3, Vitamin E, Flaxseed Oil, Mannan-oligosaccharide (MOS), Pitho Spirulina.

- **Biotin:** Prevents dandruff by increasing skin moisture. It helps the absorption of fats and proteins. Supports fur, fur follicle and skin health.
- **Zinc:** It fights irritation and inflammation with its support for cell renewal while helping to protect the flexible epidermal barrier; Supports fur, skin and fur follicle health.
- **Collagen TIP1-TIP3** promotes hydration. It has a strong effect in minimizing fur loss.
- **Vitamin E:** Supports the immune system and the body's ability to form red blood cells while protecting against oxidative stress, which can negatively affect cell membranes, neurological function, vision and cardiovascular health. Thanks to its antioxidant and anti-inflammatory properties, vitamin E for cats is also recommended in the treatment of different chronic inflammatory or immune-mediated disorders, especially of the skin and gastrointestinal tract.
- **Linseed Oil:** It is a natural moisturizer for skin and feathers. It helps reduce inflammation, itching, dryness and flaking by nourishing the skin from within. Provides healthy fur and fur follicle formation.
- **MOS (Mannan-Oligosaccharides):** Regulating the intestinal flora, MOS supports skin and coat health by preventing problems in the skin to which the intestinal mucosal immune system connects through the migration of immune cells.
- **Pitho Spirulina,** which is of human use quality and contains 70% protein: It contains 9 essential amino acids, strong c-phycocyanin, healthy fatty acids and iron simultaneously and in its natural structure. These nutrients are necessary for long-lasting fur follicles, feather development and skin health. While it is effective in preventing acne formation with the anti-inflammatories it contains, it is a functional food that is considered a natural antihistamine.

# IMMUNE SUPPORT

**Immune Booster** supports the healthy development of dogs and strengthens their immune response.

**Ingredients:** Vitamin E, Folic Acid, Pantothenic Acid, Vitamin A, Biotin, Pitho Spirulina.

- **Vitamin E:** Supports the immune system and the body's ability to form red blood cells while protecting against oxidative stress, which can negatively affect cell membranes, neurological function, vision and cardiovascular health. Thanks to its antioxidant and anti-inflammatory properties, it is also recommended as an adjunctive treatment of different chronic inflammatory or immune-mediated disorders, especially of the skin and gastrointestinal tract. Vitamin E is also recommended in the treatment of different chronic inflammatory or immune-mediated disorders, especially of the skin and gastrointestinal tract.
- **Folic Acid:** While it plays an active role in cell division, new cell formation and cell renewal, it is also effective in DNA formation and the conversion of carbohydrates into energy.
- **Pantothenic Acid:** Eye, skin and fur health; proper functioning of the nervous system and liver; It plays an important role in the healthy digestive system and the production of red blood cells that carry oxygen in the body.
- **Vitamin A:** An essential vitamin with functions that support vision, bone growth, reproduction, cellular differentiation and immune response in dogs.
- **Biotin:** Also known as Vitamin H, biotin is an essential nutrient that helps the body metabolize carbohydrates, fats, and amino acids. It helps keep their skin flexible and their fur healthy.
- **Pitho Spirulina,** which is of human use quality and contains 70% protein: It provides a physical and cognitive detox effect with its 9 essential amino acids, powerful c-phycoocyanin and nutrients, and plays an important role in strengthening the immune response.

TREATMENT  
SUPPORT

Individuals with paws in our lives are exposed to many toxins not only in chemotherapy, but also in antibiotic treatments, ingestion of internal and external parasite medications, vaccines, and even dry and wet food.

**Pitho D-Tox Advanced** is specially formulated to remove these toxins stored in the liver from the body.

**It contains** Milk Thistle Extract, which contains the active ingredient Silymarin at a high rate of 80%, and Turmeric Extract, which contains the active ingredient Curcumin.

It is a known fact that the absorption of Curcumin in the body is poor. Pitho D-Tox Advanced uses water-soluble Curcumin produced with special technology. This increases its absorption in the body and therefore its bioavailability.

Pitho D-Tox Advanced with human-use quality Pitho Spirulina, Milk Thistle and Turmeric containing 14% C-phycocyanin:

- Removes toxins from the liver and kidneys
- Regulates liver and kidney functions
- Supports liver regeneration
- Supports kidneys damaged by diabetes
- Antioxidant properties may benefit as anti-cancer support

**Usage Recommendation:** For cats: 2 tablets per day. For Dogs: 1 tablet per 10 kg of body weight, twice daily. It can be given directly or by crushing it and sprinkling it into dry/wet food. (1 tablet = 0.5 g)

- 
- 

for  
paw individual

Studies have shown that increasing lysine intake, in addition to its essential role in protein synthesis, provides benefits in combating herpes virus, an agent responsible for upper respiratory tract diseases commonly referred to as feline rhinitis in cats.

In individuals with viral infections, lysine supplementation reduces the severity and duration of their infections.

It supports the relief of sneezing, wheezing, nasal congestion, mouth sores, fever, runny nose, watery eyes and lethargy.

Its use provides a preventive effect in individuals with paws that are prone to viral diseases in certain seasons and/or periods.

# URINER DETOKS

The kidneys and urinary tract play an important role in the body's detoxification processes.

In order for the paw individuals in our lives to stay strong and healthy, we need to support their urinary systems is now more important than ever due to the high toxic load in our modern environment.

**Pitho Urinol-C** is formulated with high quality **Cranberry** (*Vaccinium Macrocarpon*) and Vitamin of **100% natural active ingredients** that are widely being used in North America and Scandinavian countries.

Pitho Urinol-C is very rich especially in terms of **proanthocyanidin (PAC)** and it has been proven to significantly reduce the stickiness of E.Coli, widely found in urinary systems, which causes infection by sticking to the mucous membranes.

**Recommendation for use:** It can be given directly or by crushing and sprinkling into dry/wet food.

**Pitho Spirulina** is a vegan protein source rich in essential amino acids.

It supports the immune system with the antioxidants and nutrients it contains in nature.

- It helps control weight thanks to its fibrous structure in addition to the many natural nutrients it contains.
- It protects skin and hair health with the vitamins and healthy fatty acids it contains.
- Thanks to its L-tryptophan content, it helps cope with stress by ensuring the secretion of serotonin and melatonin.
- Thanks to the folic acid it contains, It supports cognitive health.
- It protects intestinal health with its prebiotic, antioxidant and anti-inflammatory properties.
- It offers many benefits, from blood pressure and cholesterol management to mouth ulcers and joint pain, contributing to its classification as a 'functional food'.
- Each of its benefits has been proven by detailed studies conducted by international universities, and the original articles of these studies can always be accessed.
- It does not contain preservatives, colourants, sweeteners, aromas or any additives.

Pitho Spirulina has superior harvest quality and contains 70% protein and 14% c-phycocyanin. Detailed analyzes proving harvest quality are always open for sharing. You can visit our website to get detailed information about Pitho Spirulina and its benefits and the scientific studies that are the source of all information.
